

TrainingToday: Online Safety Training Platform

TrainingToday is an online platform designed to support workplace safety, compliance, and professional development through accessible, self-paced learning. With a diverse catalog of modules ranging from Bloodborne Pathogens and PPE to Fire Safety and Stormwater Pollution Prevention, TrainingToday ensures that faculty and staff remain informed, prepared, and compliant with institutional and regulatory standards.

Whether you're new to campus or brushing up on essential protocols, these courses provide flexible, on-demand learning tailored to the needs of the modern workforce.

To learn more or register for training, contact EHS at **EHS@wcupa.edu** or **610-436-3333**.

Laboratory Safety

- Biosafety in the Laboratory
- Chemical Hygiene Plan
- Compressed Gas Cylinders in the Laboratory
- Ergonomics for the Laboratory
- Hazardous Waste Safety in the Laboratory
- Laboratory Hazard Identification
- Laboratory PPE
- Laboratory Recordkeeping for Supervisors
- Laboratory Security
- Laser Safety in the Laboratory
- Radiation Safety in the Laboratory
- Reactive Chemicals
- Safe Chemical Handling
- Understanding Chemical Labels Under GHS
- Understanding the Safety Data Sheet (SDS)
- Working Safely with Benzene / Corrosives / Flammable Liquids / Formaldehyde / Pesticides / Solvents
- Working with Flammables and Reactives in the Laboratory

Hazardous Materials and Waste Management

- Chemical Hygiene Plan
- Compressed Gas Cylinder Safety
- EPA Inspections
- Handling Medical Waste
- Hazard Communication and GHS
- Hazardous Materials Spill Cleanup
- Hazardous Materials Transportation
- Hazardous Waste Container Management
- Hazardous Waste Emergency Response
- Hazardous Waste Facility Operation and Maintenance
- Hazardous Waste Introductory Training
- Hazardous Waste Manifests
- Hazardous Waste Recordkeeping Requirements
- Hazardous Waste Safety in the Laboratory
- Hazardous Waste: Health Effects / Routes of Exposure
- Hazmat Transportation
- HAZWOPER
- Identifying Hazardous Materials
- Infectious Materials Transportation
- Radiation Safety
- Reactive Chemicals
- Safe Chemical Handling
- SPCC and FRPs / SPCC Plan
- Spill Prevention, Control, and Countermeasure Plan
- Stormwater Pollution Prevention Plan (SWPPP)
- Universal Wastes: Large and Small Quantity Handlers
- Understanding Chemical Labels Under GHS

- Understanding the Safety Data Sheet (SDS)
 - Working Safely with Benzene / Corrosives / Flammable Liquids / Formaldehyde / Pesticides / Solvents
-

Workplace Safety

- Accident Investigation
- Aerial Lift Safety
- Arc Flash Safety: Unqualified Person
- Asbestos Awareness
- Avoiding Back Injuries
- Avoiding Exposure to Bloodborne Pathogens
- Basic First Aid for Medical Emergencies
- Battery Safety
- Blasting and Explosives Safety
- Chain Saw Safety for Construction Workers
- Contractor Safety
- Contributing to a Culture of Safety
- Cranes & Rigging
- Dipping, Coating, and Cleaning Operations
- Effective Safety Communication
- Electrical Safety
- Ergonomics for Healthcare / Industrial / Remote Workers
- Eye Protection
- Fall Protection in Construction
- Fleet Safety: Tips and Considerations
- Forklifts and Pedestrian Safety
- Good Housekeeping
- Grounds Maintenance Safety
- Hexavalent Chromium Safety

- How to Lift and Transfer Patients Safely
- How to Prevent Slips, Trips, and Falls
- How to Prevent Workplace Violence
- Introduction to Industrial Hygiene
- Introduction to Rough Terrain Forklift Safety
- Job Hazard Analysis
- Ladder Safety
- Lead Safety
- Lockout/Tagout
- Machine Guarding
- Metalworking Fluids
- Mold Hazards and Prevention
- Noise and Hearing Conservation
- Permit-Required Confined Spaces
- Personal Fall Protection Systems
- Personal Protective Equipment
- Portable Power Tool Safety
- Powered Platform Safety
- Preventing Slips, Trips, and Falls
- Preventing Workplace Violence
- Recordkeeping: Injury and Illness
- Respirator Fit Testing
- Respiratory Protection
- Safe Forklift Operation
- Safety as a Right and a Responsibility
- Safety Leadership
- Scaffolds in Construction
- Scissor Lifts: Operator Safety
- Shiftwork Safety

- Silica Dust in General Industry
 - Slips, Trips, and Falls: What Supervisors Need to Know
 - Snow and Ice Removal Safety
 - Stress Management
 - Trenching: Competent Person
 - Underground Construction Safety
 - Warehouse Safety
 - What Is Safety Culture?
 - Welding and Cutting Safety
 - Whistleblower Protections
 - Working in Cold/Hot Conditions
 - Working Safely Around Heavy Equipment / Near Power Lines / Outdoors
 - Workplace Safety for Employees
-

Fire Safety

- Arc Flash Safety
 - Emergency Action and Fire Prevention
 - Fire Extinguishers Safe Use and Handling
-

Emergency Preparedness

- Active Shooter: What Every Employee Should Do
- Disaster Planning
- Emergency Action and Fire Prevention
- Emergency Preparedness for Healthcare Workers
- Hazardous Waste Emergency Response
- HAZWOPER
- Preparing for Weather Emergencies
- SPCC / SPCC Plan
- Stormwater Pollution Prevention Plan (SWPPP)

Driving & Vehicle Safety

- Class C UST Operator Training
- Defensive Driving (Noncommercial & CMVs)
- Extreme Weather Driving for All Drivers
- Refueling Equipment
- Safe Driving Techniques for CMVs
- Safe Driving: Backing Up / Preventing Rear-End Collisions
- The Dangers of Distracted Driving
- Working Safely Near Power Lines (if operating vehicles)

Other / Miscellaneous

- Introduction to OSHA and the General Duty Clause
- Lean Project Management
- Process Safety Management
- Stormwater Pollution Prevention Plan (SWPPP)
- Training the Trainer
- Water Conservation: Making Every Drop Count
